Foreman - Feature #10089

Use fixed-width font for parameters

04/08/2015 06:57 AM - Jérôme Vizcaino

Description

As some parameters are displayed as YAML, using a fixed-width font would greatly ease reading and writing of such values. Right now, indentation is too hard to get right and I usually have to edit the parameter in an external editor then copy-paste the content in order to avoid problems.
