

## Foreman - Feature #10131

### Add extra configurable options to ec2

04/14/2015 06:29 AM - Andrew Lau

<b>Status:</b> Duplicate	
<b>Priority:</b> Low	
<b>Assignee:</b>	
<b>Category:</b> Compute resources - EC2	
<b>Target version:</b>	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b>
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
It would be nice to have a better set of configurable options available for the ec2 compute resource such as dynamic loading of new security groups/subnets based on availability zone selection, attaching elastic ip address to instance, volume selection in creation.	

#### History

##### #1 - 04/20/2015 04:15 AM - Dominic Cleal

- Project changed from Plugins to Foreman

- Category set to Compute resources - EC2

It would be helpful if you could check against the current open EC2 issues and create tickets for the individual items, so they can be tracked separately.

##### #2 - 04/22/2015 04:26 AM - Andrew Lau

Oh, couldn't find that filter section when I went through the projects section. These features have already been reported, including one by myself many months ago which I forgot about.

How do I close this issue?

##### #3 - 04/22/2015 04:32 AM - Dominic Cleal

- Status changed from New to Duplicate

Yeah, it's a bit hidden! You have to go to the issues list for the project, then select Category from the dropdown in the top-right. No worries.
