

## Foreman - Bug #10138

### Manage Location and Organization unusable once thousands of nodes are assigned

<b>Description</b>	
<p>Testing forman 1.8 rc3 and have enabled Organization and Location support for the first time. With 500 - 2,000 nodes assigned the response time is slow but workable, even 2500 nodes take quite a bit longer. On Locations or Organizations with 7000 + nodes assigned it seems to spin forever.</p>
