Description

1) select some hosts
2) edit multiple
3) change group
4) select a group
OK button is not activated.
I think that this does work sometimes but mostly it does not
This was seen on develop @ fixes #1010

This appears to be caused by the edit_multiple dialog being re-rendered each time that it is opened. The correct solution is to render it once and reuse it but this fix just ensures that the button that is enabled/disabled is the one that is associated with the dialog that is currently visible.
