Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
Running	
<pre># foreman-installer -v --foreman-ipa-authentication=true</pre>	
on RHEL 6.6 with 1.7 and nightly fails. On RHEL 7, the same command passes.	
The error is	
<pre>[WARN 2015-04-20 06:19:13 verbose] Could not load fact file /usr/share/foreman-installer/modules/foreman/lib/facter/facts.rb: no such file to load -- util/sssdb[...][INFO 2015-04-20 06:19:16 verbose] foreman: The system does not seem to be IPA-enrolled at /usr/share/foreman-installer/modules/foreman/manifests/config.pp:55 on node foreman.example.com</pre>	
This is with	
<pre># rpm -qf /usr/share/foreman-installer/modules/foreman/lib/facter/util/sssdbforeman-installer-1.7.4-1.el6.noarch</pre>	
One possible difference is that on RHEL 6, there is	
<pre># rpm -q puppetpuppet-2.7.26-2.el6.noarch</pre>	
while on RHEL 7, there is	
<pre>puppet-3.6.2-3.el7.noarch</pre>	
I know I saw this issue earlier or discussed it on IRC but I've hit it today and the fact that it is present with nightly	
<pre># rpm -qf /usr/share/foreman-installer/modules/foreman/lib/facter/sssdb /usr/share/foreman-installer/modules/foreman/lib/facter/util/sssdbforeman-installer-1.9.0-0.develop.201504200925git6d5c890.el6.noarchforeman-installer-1.9.0-0.develop.201504200925git6d5c890.el6.noarch</pre>	
as well makes me suspect something is still wrong.	

History

#1 - 04/20/2015 10:34 AM - Dominic Cleal

- Project changed from Foreman to Installer
- Category set to Foreman modules
- Priority changed from High to Normal

#2 - 07/20/2015 08:39 AM - Veronika Kabatova

Hi, the problem is still present with

```
rpm -qf /usr/share/foreman-installer/modules/foreman/lib/facter/util/sss.rb  
foreman-installer-1.10.0-0.develop.201507200324gitb34c05c.el6.noarch
```

#3 - 12/10/2015 09:33 AM - Jan Pazdziora

We still see Foreman failing to configure with IPA, on RHEL 6.5 and 6.7, with

```
foreman-installer-1.11.0-0.develop.201512100324git345d7f0.el6.noarch  
foreman-1.11.0-0.develop.201512091815git0e9b35e.el6.noarch
```

#4 - 04/07/2017 04:48 AM - Dominic Cleal

- *Status changed from New to Rejected*

Support for EL6 was dropped in Foreman 1.12, this will not be fixed.
