

Foreman - Bug #10217

Hosts count wrong on Puppet Classes Page

04/21/2015 06:10 AM - Jan Wenzel

Status:	Duplicate	
Priority:	Normal	
Assignee:		
Category:	Web Interface	
Target version:		
Difficulty:		
Triaged:		
Bugzilla link:		
Pull request:		
Description		
On <i>Configure->Puppet Classes</i> , the hosts counter is wrong. It includes only the hosts which have directly assigned the class. The hosts which have the class indirectly assigned (host- or config group) are not counted.		
When i follow the link of the hosts_counter (click on the digit), all hosts are shown correctly.

History

#1 - 04/21/2015 06:19 AM - Dominic Cleal

- Is duplicate of Bug #844: puppetclass host count does not count hosts though a hostgroup added

#2 - 04/21/2015 06:20 AM - Dominic Cleal

- Status changed from New to Duplicate

Thanks for the report! This has finally been fixed via [#844](#) for Foreman 1.8.0.
