

Foreman - Bug #10359

API doc for /api/v2/locations does not mention organizations

05/04/2015 09:41 AM - Bryan Kearney

Status:	Closed	
Priority:	Normal	
Assignee:	Oleh Fedorenko	
Category:	Organizations and Locations	
Target version:		
Difficulty:		Fixed in Releases: 1.23.0
Triaged:	No	Found in Releases:
Bugzilla link:	1216231	Red Hat JIRA:
Pull request:	https://github.com/theforeman/foreman/pull/6892	
Description		
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1216231		
Description of problem: The API documentation for /api/v2/locations (at https://sat.example.com/apidoc/v2/locations.html) does not make any mention of organizations. This is problematic because it is, in fact, possible to associate a location with an organization by POSTing to /api/v2/locations, and also presumably by PUTting to /api/v2/locations/:id.		
Version-Release number of selected component (if applicable): Tested against Satellite-6.1.0-RHEL-6-20150424.0 and Satellite-6.1.0-RHEL-7-20150424.0.		
How reproducible: 100%		
Steps to Reproduce: 1. Go to https://sat.example.com/apidoc/v2/locations.html . Search for "organization".		
Actual results: No mention of organizations.		
Expected results: Mention of the fact that one can associate a location with zero or more organizations.
