

Discovery - Bug #10365

Migration to delete duplicate tokens doesn't work when there are no managed hosts

05/05/2015 04:11 AM - Ori Rabin

Status: Closed	
Priority: Normal

Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman_discovery/pull/179	
Description	
<p>The migration to fix: http://projects.theforeman.org/issues/9597 finds all the tokens that don't belong to a managed host. When there are no managed hosts</p> <pre>Host::Managed.all.map(&:token).compact</pre> <p>is empty and so this line: https://github.com/foreman/foreman_discovery/commit/bc01733928b6babaf0feefbbce326169ae588b08#diff-791d17258792727551dfb2f3bb0e43b1R3 doesn't delete anything.</p> <p>To fix this if there are no managed hosts all of the tokens should be deleted.</p>
