| <b>Description</b>                                                                                                                                                             |                           |
| Using the simple Net:HTTP.post ruby method will always try to speak plaintext HTTP, even over an HTTPS URL. The attached patch examines uri.scheme, and enables SSL if needed. |                           |

#### History

##### #1 - 12/02/2009 03:55 AM - Ohad Levy

- Status changed from New to Closed
- Target version set to 0.1-3
- % Done changed from 0 to 100

fix at [f26126b9](#)
