

Foreman - Bug #10542

autocomplete does not work in editing role filters

05/18/2015 05:04 PM - Walden Raines

Status: Closed	
Priority: Normal	
Assignee: Walden Raines	
Category: Web Interface	
Target version: 1.8.2	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 1222650	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/2394	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1222650	
Description of problem: autocomplete does not work in editing permissions	
Version-Release number of selected component (if applicable): Sat 6.1 GA Snap 4	
How reproducible: Always	
Steps to Reproduce:	
1. Create a role	
2. Create a filter for the role by	
- Navigate to UI -> Administer -> Roles -> Click on 'Filter' for the newly created role	
- Click New filter	
- Resource type - Products and Repositories	
- Permission - view_products	
- Uncheck Unlimited?	
- Click on Search field - see autocomplete dropdown suggestions shown. Select 'name' and select a product like 'name = product1'	
- Click Submit to create the filter	
3. Now edit the newly created filter in Step 2	
4. Clear Search box value 'name = product1' and attempt to enter a new value.	
Actual results: Notice that the search box autocomplete dropdown does not work in edit filter	
Expected results: search box autocomplete dropdown should work in edit filter

Revision f536685b - 05/22/2015 11:40 AM - Walden Raines

Fixes #10542: correct path for auto complete search on filters page.

The filters page was using an incorrect path for the autocomplete search which caused it to not work on initial page load with non-core resources. This commit updates the autocomplete search path to use the correct URL.
