## Associated revisions

## Revision b9df73be - 05/10/2017 04:25 AM - Ohad Levy

fixes #19479, #10587, #19500 - two pane notifications are visible

- notification is now inside the content div, allowing two-pane server responses to include it.

- refactored all notifications to use notification helpers (notice,

warning and error) instead of direct flash manipulation

- also added the usage of flash now via the helpers, and fixed

it in a couple of places it was used incorrectly (mostly clone rendering which does not redirect at all).

- fixed consisteny to remove trailing dots from toast messages (as it seems most strings are without dot suffix).

- safer handing if notification div or its data is undefined.

#### History

#### #1 - 05/09/2017 04:33 AM - Ohad Levy

- Related to Bug #19479: two-pane notifications are not visible added

#### #2 - 05/09/2017 04:33 AM - The Foreman Bot

- Status changed from New to Ready For Testing
- Assignee set to Ohad Levy

- Pull request https://github.com/theforeman/foreman/pull/4513 added

#### #3 - 05/10/2017 05:01 AM - Ohad Levy

- Status changed from Ready For Testing to Closed

- % Done changed from 0 to 100

Applied in changeset <u>b9df73be192a8485610f51a113b67260dc5f9e49</u>.

## #4 - 05/10/2017 05:02 AM - Dominic Cleal

- Category changed from Web Interface to Notifications

## #5 - 05/10/2017 07:27 AM - The Foreman Bot

- Pull request https://github.com/theforeman/foreman/pull/4523 added
