

## Foreman - Bug #10627

### Monitor -> Reports will show reports for hosts not in the Organization context

05/27/2015 10:02 AM - Tommy McNeely

<b>Status:</b> Closed	
<b>Priority:</b> Normal

<b>Category:</b> Organizations and Locations	
<b>Target version:</b> 1.8.2	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b> 1.8.1
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b> <a href="https://github.com/theforeman/foreman/pull/2448">https://github.com/theforeman/foreman/pull/2448</a>	
<b>Description</b>	
<p>When I have the Organization context set, and select Monitor -&gt; Reports, I end up with "blank" hosts (nil), because the reports belong to orgs that are not in the context.</p> <p><a href="https://www.dropbox.com/s/gofr1n5hsjlm43d/Screenshot%202015-05-27%2007.56.59.png?dl=0">https://www.dropbox.com/s/gofr1n5hsjlm43d/Screenshot%202015-05-27%2007.56.59.png?dl=0</a></p> <p>If I change the context back to "Any Organization" ... then the host links aren't nil anymore...</p> <p><a href="https://www.dropbox.com/s/9rqyzdyz6qvmego/Screenshot%202015-05-27%2007.57.14.png?dl=0">https://www.dropbox.com/s/9rqyzdyz6qvmego/Screenshot%202015-05-27%2007.57.14.png?dl=0</a></p> <p>The reports that are associated to hosts not in the current organization context should not appear at all.</p> <p>~tommy</p>

#### Associated revisions

##### Revision 9926db42 - 06/11/2015 02:25 AM - Dominic Cleal

fixes #10627 - apply host taxonomy scope to facts/report joins

Previous changes to perform a join onto hosts with authorisation result in a query such as Report.joins(:hosts), which ignores any default\_scope on Host::Base. This commit explicitly passes taxonomy conditionals into the Authorizer to re-apply it.
