Foreman - Feature #10937

Hosts API should expose VM storage and network information

06/25/2015 06:44 PM - Walter Huf

Pull request:	https://github.com/theforeman/foreman/pull/2492		

Description

At least with the VMware backend, the Fog Server object's attributes don't include the network interfaces or the storage volumes, which means they don't get exposed through the API.
