

Foreman - Bug #1101

DHCP complains about conflict when machine already has a lease

08/09/2011 06:56 AM - Marcello de Sousa

Status: Closed

Target version: 0.4	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description As discussed with Ohad: When creating a host I get often: <pre>1 error prohibited this host from being saved Failed to set the DHCP record: MAC 00:0f:30:6f:da:bc is used by this reservation: 00:0f:30:6f:da:bc - 192.168.222.112</pre> That happens probably because I have turned the machine on before (needed by VMWare to generate the MAC address). Using the same IP as the lease doesn't help with the problem.

does this still happens after [#944](#) ?

#2 - 09/06/2011 06:17 AM - Marcello de Sousa

No. It looks like it's fixed.
