

## Foreman - Bug #11109

### Roles created via plugin DSL are missing Default user permissions

07/14/2015 05:28 AM - Lukas Zapletal

<b>Status:</b> Rejected	
<b>Priority:</b> Normal	
<b>Assignee:</b> Lukas Zapletal	
<b>Category:</b> Plugin integration	
<b>Target version:</b>	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b>

<b>Pull request:</b>	
<b>Description</b>	
<p>When new role is created, it is automatically assigned permissions defined in Default user. This works only in our controller, but not in our plugin "role" DSL statement.</p> <p>All plugins need to make sure the permissions are added via migration. I will create such an example migration for discovery and inform the developers on the list.</p>	

#### History

#1 - 07/14/2015 07:06 AM - Lukas Zapletal

- Status changed from New to Rejected

This is invalid, Default user permissions are not added automatically. We used to pre-fill the New Role form, but that does not work anymore. [#9425](#)
