<b>Pull request:</b> <a href="https://github.com/foreman/foreman/pull/2599">https://github.com/foreman/foreman/pull/2599</a>	
<b>Description</b>	
When adding IPA server as LDAP Auth Source, after submitting, the password field shows a placeholder even if no password was provided. This may be confusing when finding the source of the problem, since the error and traceback when creating group with this auth source is the same as in <a href="http://projects.theforeman.org/issues/11153">http://projects.theforeman.org/issues/11153</a> .	
Not showing the password placeholder when there is no password and / or showing different error message would definitely help.
