Description		
Hello,		
I try to create a new puppetclass with puppetclasses menu in foreman but the puppetclasse create now work in puppet. I have this error :		
Could not retrieve catalog from remote server: Error 400 on SERVER: Could not find class toto		
Is not posible to create à puppetclasse with this menu ?		
Best regards.

you can.. but there must be a puppet class in puppet with the same name.. ideally, you want to use the import button to import all of your puppet classes automatically, so you don't need to create new ones
