Pull request:			

Description

Embedded links for hosts in Summary Puppet Report were all http and not https - even if Foreman::Settings::require_ssl true

Patch below works for me...

/var/www/foreman/app/views/host_mailer# diff -u _link_to_host.text.html.erb _link_to_host.text.html.erb-new

```
--- _link_to_host.text.html.erb    2011-08-23 08:55:51.603479377 -0700
+++ _link_to_host.text.html.erb-new    2011-08-23 08:55:39.993358933 -0700

would you mind sending it as a git patch? this way you would get your credit :)

#2 - 02/01/2012 11:17 AM - Craig White

I know next to nothing about making a git patch but don't actually care about credit anyway. If you want to clue me in on how to make a git patch file, I'd be happy to do it.

#3 - 02/22/2012 06:57 AM - Jim Bailey

Hi Craig,

this should help to "clue you in"
