Triaged:		
Bugzilla link:		
Pull request:	https://github.com/foreman/foreman/pull/2596	
Description		
This is related to this issue: https://github.com/foreman/foreman_hooks/issues/24 I would like to have other plugins (in this case foreman_discovery) to be able to update the rabl path. Currently, rabl_init.rb sets the config.view_path. It should instead append to it. -PP

I would like to have other plugins (in this case foreman_discovery) to be able to update the rabl path. Currently, rabl_init.rb **sets** the config.view_path. It should instead append to it.
