Pull request:	https://github.com/theforeman/foreman_ discovery/pull/205		

Description

This is related to this issue with foreman hooks:

https://github.com/theforeman/foreman_hooks/issues/24

The discovery code should update the view_path so that the rabl files available with the discovery plugin are available to foreman_hooks' use.

This requires a change in the foreman code also. Here's a bug for that:

http://projects.theforeman.org/issues/11312
