

Foreman - Refactor #11389

Extract API v1 into a plugin

08/17/2015 09:28 AM - Ohad Levy

Status: Closed	
Priority: Normal	
Assignee: Tomer Brisker	
Category: API	
Target version: 1.18.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/5068	
Description	
As APIv1 gets older, its discouraged from using. I would suggest we extract it from Core to a plugin initially before officially dropping support for it.

Fixes #11389 - Remove API v1

API v1 has been deprecated since Foreman 1.9 - over 2 years ago. This is more than enough time for anyone needing to migrate to v2. Even though the original issue requests extraction to a plugin, I do not see any point in investing the time and effort to maintain a long deprecated API.
