

Foreman - Bug #11404

UI throws 'Host group Not Found' on cloning a existing hostgroup

08/18/2015 08:17 AM - Shimon Shtein

Status:	Duplicate	Fixed in Releases: Found in Releases: Red Hat JIRA:
Priority:	Normal	
Assignee:	Shimon Shtein	
Category:		
Target version:		
Difficulty:		
Triaged:		
Bugzilla link:	1253655	
Pull request:		
Description		
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1253655		
Description of problem:		
I upgraded sat6.0.8 to sat6.1.1 snap16 and upgrade completed successfully.		
I tried to clone existimg hostgroup and UI says: "Host Group Not Found"		
Please note that this is the issue with cloning existing hostgroup and after upgrade. Cloning of new hostgroup works fine.		
Version-Release number of selected component (if applicable):		
upgrade		
How reproducible:		
always		
Steps to Reproduce:		
1. install sat6.0.8		
2. create a hostgroup		
3. upgrade it with 6.1.1		
4. cloned the hostgroup created in step2		
Actual results:		
UI says: "Host Group Not Found"		
Expected results:		
cloning should work		
Additional info:

With parameters.

Do you want me to publish the PR to that bug?

#3 - 08/18/2015 09:01 AM - Dominic Cleal

- Is duplicate of Bug #9815: HostGroup Clone doesn't work if the hostgroup has parameters added

#4 - 08/18/2015 09:01 AM - Dominic Cleal

- Status changed from New to Duplicate

What do you mean by publish?
