

Foreman - Bug #1143

Searching for hosts with parameters is broken.

09/02/2011 01:47 PM - Bash Shell

Status: Closed	
Priority: Normal	
Assignee: Amos Benari	
Category: Search	
Target version: 1.1	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description How to reproduce: 1> Create 2 hosts 2> Add a parameter to ONE of the above hosts: "Param-name = param1 and Param-value = val1" 3> Search on the web interface for: "params.param1 ~ val1" 4> Expected results: One host should be returned. 5> Actual results: Hosts not having this parameter are returned.

Revision 7c9f112e - 11/15/2012 08:18 AM - Amos Benari

fixes #1143 Searching for hosts with parameters is broken.

History

#1 - 09/02/2011 01:49 PM - Bash Shell

Note that searching with "=" instead of "~" works fine:

```
"params.param1 = val1"
```

#2 - 09/04/2011 04:48 AM - Ohad Levy

- Assignee set to Amos Benari

#3 - 10/18/2011 12:52 AM - Bash Shell

Looks like in the latest develop, searching for anything returns results:
Like:

```
"params.noexist = noexist"
```

returns all hosts.
