Description

If a user is logged into foreman, he can see all menus even he has not right to access them. To make it cleaner for those users, is it possible to hide all unaccessible menus ?

I don't know if such feature is already implemented as I'm using foreman 0.3

Thanks

- Category set to Web Interface

- Status changed from New to Closed

- Target version set to 0.4

This has already been done as part of recent UI changes.
