fixes #11649 - taxonomies api - add description to base.json.rabl

Adding the 'description' to the base.json.rabl so that it is displayed
when a user performs commands like 'organization list' from hammer-cli-katello.

E.g.

```
hammer> organization list
-----|-----|-----
ID | NAME          | LABEL          | DESCRIPTION
-----|-----|-----
1  | Default Organization | Default_Organization |
12 | org3           | org3-label      | this is an org
-----|-----|-----
```
