#2 - 09/02/2015 07:20 AM - Dominic Cleal

- Subject changed from Change VMWare porgroup to Network interface dropdowns not disabled on VMware host edits

Foreman doesn't support editing of VMware hosts, so these should have been disabled - they were in previous versions, and are for other compute resource types, but this is a bug/regression specifically on the VMware form (app/views/compute_resources_vms/form/vmware/_network.html.erb).
[#4166](#) is a feature request for editing support, but it's unlikely to happen any time soon. Use vSphere.
