

Foreman - Bug #11688

Syntax highlighting defaults to text when editing provisioning templates

09/04/2015 04:59 AM - Dominic Cleal

Status: Closed	
Priority: Normal	
Assignee: Walden Raines	
Category: Templates	
Target version: 1.10.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/2697	
Description	
<p>Since #11625, the default syntax highlighting for a provisioning template is now "text" rather than "ruby", which it used to be. Most provisioning templates contain either Ruby (ERB) or shell scripts, so either ruby or sh highlighting would be reasonable defaults I think.</p> <p>Or if we don't want to change the default, perhaps a cookie could be used to remember the user's choice.</p>

Revision a265235e - 09/10/2015 02:28 PM - Walden Raines

Fixes #11688: default text editor to ruby.

Instead of defaulting to text, default to ruby syntax highlighting.

Would be nice to have this per template type.

Yeah, that makes a lot of sense with say, a cloud-init template which is usually YAML.
