History

#1 - 09/07/2015 09:52 AM - Dominic Cleal

- Project changed from foreman-tasks to Packaging
- Category set to Debian/Ubuntu

Perhaps some interaction between an upgrade of both dynflow/foreman-tasks at once? It's slightly hard to tell without a full reproducer.

I don't see why it'd be using bundle install at that point, unless the bundle show was failing entirely because of the tasks version mismatch.

#2 - 10/21/2015 06:58 AM - Anonymous

- Status changed from New to Ready For Testing
- Pull request <https://github.com/foreman/foreman-packaging/pull/852> added
- Pull request deleted ()

I hope this is better with foreman-tasks 0.7.6-2 or later, we'll see

#3 - 12/05/2015 02:08 PM - Anonymous

- Status changed from Ready For Testing to Closed
- % Done changed from 0 to 100
- Assignee set to Anonymous

this seems to be fixed
