<b>Description</b>	
<p>The release of mysql2 0.4.0 is causing a runtime error in MySQL tests - it looks like activerecord is trying to activate ~&gt; 0.3.10, but our Gemfile specifies &gt; 0.3.0.</p> <p>Our bundler.d/mysql2.rb ought to be updated to match the Rails requirement.</p> <pre>00:04:54.848 Couldn't drop test_plugin_matrix-3-dev : #&lt;LoadError: Please install the mysql2 adapter: `gem install activerecord-mysql2-adapter` (can't activate mysql2 (~&gt; 0.3.10), already activated mysql2-0.4.0. Make sure all dependencies are added to Gemfile.)&gt;</pre>

##### Revision 47604a20 - 09/08/2015 06:58 AM - Dominic Cleal

fixes #11719 - mysql2 dep must match ActiveRecord's runtime dep

When AR loads the mysql2 adapter, it calls 'gem' with a version spec. For our bundle to include a compatible version of mysql2 and not the latest version, the spec needs to match AR's.
