

Katello - Bug #11737

Qpid should only listen on localhost

09/08/2015 01:18 PM - Stephen Benjamin

Status: Closed	
Priority: High	
Assignee: Stephen Benjamin	
Category: Installer	
Target version: Katello 3.3.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 1252573	Red Hat JIRA:
Pull request: https://github.com/Katello/katello-installer/pull/260	
Description	
It's no longer necessary for the qpid to listen on anything but localhost, and having it otherwise can present a security issue if a compromised content host can connect to it. This problem does not exist with the dispatch router due to new asymmetric routing.
