

Foreman - Bug #11738

Hosts > Provisioning Templates > [select a template] > Associations has a string without ending punctuation

09/08/2015 02:18 PM - Brad Buckingham

Status: Closed	
Priority: Normal	
Assignee: Brad Buckingham	
Category: Internationalization	
Target version: 1.10.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 1178200	Red Hat JIRA:
Pull request: https://github.com/theforeman/foreman/pull/2689	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1178200	
Description of problem: If you go to Hosts > Provisioning Templates > [select a template] > Associations, there's a string on the screen without any ending punctuation. "When editing a Template, you must assign a list of Operating Systems which this Template can be used with. Optionally, you can restrict a template to a list of Hostgroups and/or Environments"	
There should be a period at the end of that second sentence.	
Version-Release number of selected component (if applicable): 6.0.6
