

Katello - Bug #11760

Unable to delete repository if it was included to composite CV

09/10/2015 03:32 AM - Vladimir Stackov

Status: Closed	
Priority: Normal	
Assignee: Samir Jha	
Category: Content Views	
Target version: Katello 4.11.0	
Difficulty:	Fixed in Releases: Katello 4.12.0
Triaged: Yes	Found in Releases:
Bugzilla link: 2141063	Red Hat JIRA:
Pull request: https://github.com/Katello/katello/pull/10820	
Description	
Description of problem: As a user I'm unable to find which content view is preventing repository from being deleted if repository is included to removed version of content view which was included into composite content view (yeah, it was complex, I know :D).	
Steps to Reproduce: <ol style="list-style-type: none">1. Create repository X;2. Create content view A;3. Include repository X to content view A;4. Publish content view A to library;5. Create composite content view B;6. Include content view A to composite content view B;7. Publish content view B to library;8. Remove all versions of content view A;9. Try to remove repository X.	
Actual results: RuntimeError: Repository cannot be deleted since it has already been included in a published Content View. Please delete all Content View versions containing this repository before attempting to deleting it.	
Expected results: Either indicate content view id which is preventing repository removal or prevent content view versions from being deleted if it was included into composite content view.	
Additional info: 1. hammer content-view list can't help in this situation as it was not showing repository ids for composite content views. 1. rpm -qa grep katello katello-installer-base-2.2.2-1.el7.noarch katello-service-2.2.1-0.el7.noarch katello-debug-2.2.1-0.el7.noarch katello-selinux-2.2.1-1.el7.noarch katello-common-2.2.1-0.el7.noarch katello-server-ca-1.0-2.noarch katello-certs-tools-2.0.1-1.el7.noarch katello-default-ca-1.0-1.noarch katello-agent-2.2.1-1.el7.noarch rubygem-hammer_cli_katello-0.0.14-1.el7.noarch katello-2.2.1-0.el7.noarch ruby193-rubygem-katello-2.2.2-2.el7.noarch katello-installer-2.2.2-1.el7.noarch pulp-katello-0.4-1.el7.noarch
