

Foreman - Bug #11761

Cloning of hostgroup redirects to host creation

09/10/2015 04:22 AM - Marek Hulán

Status: Closed	
Priority: Normal	
Assignee: Marek Hulán	
Category: Host groups	
Target version: 1.10.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 1267693	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/2699	
Description	
After #11683 was merged, hostgroup can no longer be cloned. When I submit the form with new attributes, the form is redirected to host creation action. The patch added data-submit to the form but it does not seem to be supported for anything else than hosts
