Fixes #11846 - Specify join_table and foreign keys for habtm associations

Rails 4 does not figure out these associations automatically and it won't find the tables. Instead, we have to specify join tables for habtm associations. This is a Rails 3 compatible change.

Revision ee99bfba - 09/24/2015 03:16 AM - Daniel Lobato Garcia

Refs #11846 - Specify join_tables for taxonomies

Missed this as part of the previous fix for 11846. As a brief reminder, it's necessary to specify the join table for habtm associations on Rails 4, and it doesn't hurt on Rails 3, so we should do it before the upgrade.
