

Foreman - Bug #1190

RPM from repositories does not work on fresh Fedora 15

Description		
On a fresh Fedora 15 install, I was unable to install foreman from packages.		
Here is the output from yum install :		
<pre>--> Running transaction check ---> Package augeas-libs.i686 0:0.9.0-1.fc15 will be installed ---> Package foreman.noarch 0:0.4-0.1rc2 will be installed --> Processing Dependency: rubygem(sqlite3-ruby) for package: foreman-0.4-0.1rc2.noarch Package rubygem-sqlite3-ruby is obsoleted by rubygem-sqlite3, but obsoleting package does not provide for requirements ---> Package which.i686 0:2.20-2.fc15 will be installed --> Finished Dependency Resolution Error: Package: foreman-0.4-0.1rc2.noarch (foreman_test) Requires: rubygem(sqlite3-ruby) Available: rubygem-sqlite3-ruby-1.2.4-6.fc15.i686 (fedora) rubygem(sqlite3-ruby) = 1.2.4-6.fc15</pre>		
The workaround is to install dependancies as listed, install rubygem-sqlite3 package, then rpm -ivh --nodeps foreman*.rpm
