Foreman - Bug #12055

Detail line in NICs table shows wrong information when a new NIC is added

10/05/2015 08:14 AM - Tomáš Strachota

Pull request:	https://github.com/theforeman/foreman/pull/2784		

Description

NICs table in the host create/edit form provides details about the interface, e.g. "physical @ bridge eth1". When a new interface is added, all the detail lines get regenerated with wrong information. It seems that data from the just added interface are used for all other lines too.
