Associated revisions

Revision 638776c5 - 10/22/2015 11:07 AM - Tom Caspy

fixes #12207 - objects with ancestors should not call ancestors if cached

up until now, ancestry objects always called their ancestors when
linking to the object because to_param called get_title instead of title
(which can be cached)
this caused a LOT of pointless queries, slowed down Hosts#index alot

Revision aa3c5523 - 01/19/2016 08:04 AM - Tom Caspy

fixes #12207 - objects with ancestors should not call ancestors if cached

up until now, ancestry objects always called their ancestors when
linking to the object because to_param called get_title instead of title
(which can be cached)
this caused a LOT of pointless queries, slowed down Hosts#index alot
