Revision 565dc8e5 - 10/26/2015 08:45 AM - Tomer Brisker

Fixes #12241 - Correct counter_cache deadlock fix

Previous fix had a bug - in `:after_commit` `self.changes` is empty, and the changes are in `self.previous_changes`. Also this only needs to run on update.

This commit adds tests to make sure cached_counters continue to work correctly in the future.
