

Foreman - Bug #12248

Host[group] parameter form shows default value even when "use puppet default" is selected

Description Steps to reproduce: Edit a smart class parameter with a non-empty default value (e.g. "true") Mark "use puppet default" Assign puppet class to host Go to host parameter tab Check the displayed value for the parameter Actual behaviour: The original default value is displayed for the parameter. Expected behaviour: Something indicating the puppet default is used for the parameter.
