Foreman - Bug #12249

Use puppet default on matchers causes smart class parameter default to be sent

10/22/2015 03:51 AM - Tomer Brisker

Status:	Closed		
Priority:	Normal		
Assignee:	Ori Rabin		
Category:	Parameters		
Target version:	1.10.1		
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**	1.8.4
Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/2879		

Description

Example:
Smart class parameter with default value "123"
If you add a matcher for hostgroup=example with no value and check use_puppet_default you expect the hostgroup example to get no value for the parameter and leave the value up to puppet.
Instead, the YAML shows that the default value is sent.
This occurs even if the smart class parameter is set the use_puppet_default
