Foreman - Refactor #12261

host_id references host(id) constraint on reports STI table is too restrictive for ForemanOpenscap

10/22/2015 09:37 AM - Ondřej Pražák

Pull request:	https://github.com/theforeman/foreman/pull/2857		

Description

ForemanOpenscap will be using reports table for its ArfReport. Arf reports are mapped to hosts through Asset, therefore host_id in reports table is a foreign key of asset and not of host. ForemanOpesncap needs the foreign key constraint to be removed to be able to use the new reports STI.

History

#1 - 10/22/2015 09:41 AM - Ondřej Pražák

- Blocked by Feature #4151: Add STI to reports and allow for registering new report types added
