Smart Proxy - Bug #12578

Smart-Proxy doesn't enforce ciphersuite ordering

11/24/2015 04:15 AM - Brandon Weeks

xy/pull/348

Description

The SSL settings don't enforce ciphersuite ordering, which may allow the clients to make worse decisions about ciphersuite selection or maliciously downgraded. Enabling the 'SSLHonorCipherOrder' or 'ssl_prefer_server_ciphers' settings for Apache or Nginx is considered a best practice.
