Smart Proxy - Bug #12597

Smart Proxy DNS tests have an extra method definition that is upsetting rubocop

11/24/2015 06:38 PM - Aaron Stone

Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/smart-proxy/pull/350		

Description

The Smart Proxy Rubocop Jenkins is failing because of this test, which has an inexplicable nested definition:

```
+ def test_delete_returns_error_if_value_is_missing
+   def test_create_returns_error_if_type_is_missing
+     delete '/'
+     assert_equal 400, last_response.status
+   end
+ end
```

Relates to #12209
