Foreman - Bug #12618

Compute profile overrides compute attributes provided in host form

11/26/2015 09:56 AM - Marek Hulán

Status:	Closed		
Priority:	Normal		
Assignee:	Marek Hulán		
Category:	Compute resources		
Target version:	1.10.0		
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**	
Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/2937, https://github.com/theforeman/foreman/pull/2957		

Description
If I select compute profile and in Virtual Machine tab I change some compute attr (e.g. image to be used or amount of RAM) it gets overiden by what's set in compute profile when I submit.

Associated revisions

Revision 19d9e229 - 12/11/2015 06:36 AM - Shimon Shtein

Fixes #12618 - Now calls for compute attributes are explicit.

Prevents compute attributes from being overwritten unconditionally from
the hostgroup's compute profile.

Revision 26095e05 - 12/11/2015 12:29 PM - Shimon Shtein

Fixes #12618 - Now calls for compute attributes are explicit.

Prevents compute attributes from being overwritten unconditionally from
the hostgroup's compute profile.

This looks like a regression introduced by #12461, which calls set_compute_attributes from set_hostgroup_defaults without checking the value of compute_attributes.

#4 - 11/26/2015 10:39 AM - Marek Hulán

I think that call is required, after you select a hostgroup you need to refresh compute attributes from profile unconditionally. Maybe now we can even remove the condition from before_validation if it makes more sense. Anyway thanks for quick look.
