

Foreman - Bug #12642

Inline class parameter override shown in Ruby hash syntax

12/01/2015 06:04 AM - Dominic Cleal

Status:	Closed	
Priority:	Normal	
Assignee:	Tomer Brisker	
Category:	Parameters	
Target version:	1.11.0	
Difficulty:		Fixed in Releases:
Triaged:		Found in Releases:
Bugzilla link:		Red Hat JIRA:
Pull request:	https://github.com/foreman/foreman/pull/2949	
Description		
<p>Since #11458, overridden smart class parameters with type=hash are showing in the host#edit form in a Ruby-style hash rather than the YAML or JSON representation. This prevents the host being saved as the syntax isn't understood on save.</p> <p>Before it showed as a: b and now shows as {"a"=>"b"} in the inline text box.</p>
