Foreman - Bug #12652

Cannot change the disk name when provisioning a VMware host

12/01/2015 01:42 PM - Bryan Kearney

Status: Closed

Priority: Normal

Assignee: Chris Roberts

Category: Compute resources - VMware

Target version: 1.15.0

Difficulty:

Triaged: Found in Releases: 1.14.1

Fixed in Releases:

Bugzilla link: 1273947 Red Hat JIRA:

Pull request: https://github.com/theforeman/foreman/p

ull/4252

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1273947

Description of problem:

cannot change the HardDisk name when provisioning a vm for vmware compute resource.

Version-Release number of selected component (if applicable):

Sat6.1.3

How reproducible:

Steps to Reproduce:

- 1. add a vmware compute resource
- 2. provision a host on this compute resource with a custom HD name
- 3. Unable to see the custom HD name at vmware end

Actual results:

Unable to see the custom HD name in the vmware

Expected results:

Should be able to see the custom HD name at the vmware side.

Fixes #12652 - VMware Volume name is readonly

History

#1 - 12/02/2015 02:55 AM - Dominic Cleal

- Subject changed from cannot change the HardDisk name when provisioning a vm for vmware compute resource to Cannot change the disk name when provisioning a VMware host
- Category changed from Compute resources to Compute resources VMware

Using image or network provisioning? The two methods create VMs in very different ways.

#2 - 02/28/2016 10:06 AM - Angelo Lisco

Working in a big vmware environment, I can tell you that there is no way to customize the HDD name of a VM on the VMware side. I know this is possible in RHEV/Ovirt (and maybe other CR managed by fog) but not in VMware.

So, this bug should be modified to something like "Disable volume name customization when a VMware CR is choosen".
