Pull request:	https://github.com/theforeman/foreman-packaging/pull/908		

Description

It appears that Ubuntu 14.04 (trusty) ships Ruby 2.0.0 packages which we could use to run Foreman under, instead of the default 1.9.3.

http://packages.ubuntu.com/trusty/ruby/ruby2.0

We could probably replicate what we did in #7227 for 12.04 by adding a foreman-ruby symlink or something.
