#### Associated revisions

##### Revision 2ac8d7ba - 01/25/2016 06:02 AM - Tomer Brisker

Fixes #12720 - Add tabs for puppet on proxy show page

This patch adds two tabs to the proxy show page related to puppet

1. Puppet - this tab is for proxies managing a puppet master. This tab displays information about the puppet master, such as number of classes in each environment, latest reports and so on.

2. Puppet CA - This tab incorporates the two separate pages that were already present for managing the puppet ca's certificates and autosign entry. It also incorporated the new autosign form in a modal view.

##### Revision 2f84e724 - 01/26/2016 03:13 AM - Tomer Brisker

Refs #12720 - Allow puppet CA cache to work for https proxies

When dumping CA certificates to cache, the status object is also dumped. Since the status object points to the API resource, Marshal will try dumping the API resource as well. This will fail for https proxies as the SSL certificates cannot be dumped. This prevents the dumping of the api link which will be recreated once the object is loaded back from cache.

##### Revision d2b59cee - 02/24/2016 03:54 AM - Daniel Lobato Garcia

Refs #12720 - Typo in PuppetCA certificates page

Tab title is 'certificates' instead of 'certificates'

##### Revision 92394d0b - 02/24/2016 12:32 PM - Daniel Lobato Garcia

Refs #12720 - Typo in PuppetCA certificates page

Tab title is 'certificates' instead of 'certificates'
