Pull request:	https://github.com/theforeman/puppet-foreman/pull/382, https://github.com/theforeman/foreman-installer/pull/162		

Description

Since the Foreman_Memcache plugin is necessary for clustered deployments it would be useful if you were able to install and configure this plugin using the foreman-installer.

Associated revisions

Revision 4a380942 - 12/29/2015 01:47 PM - Chris Pisano

fixes #12745 - add memcache plugin support

Initial integration of the foreman_memcache plugin to the foreman-installer.
This installs the plugin and creates the .yaml file with basic configurations.
A future release will include advanced configurations.

closes GH-382
