Foreman - Bug #12752

Host and hostgroup clone doesn't copy smart class parameters overrides

12/09/2015 05:18 AM - Ori Rabin

Status:	Closed		
Priority:	Normal		
Assignee:	Ori Rabin		
Category:	Parameters		
Target version:	1.11.0

Triaged:		**Found in Releases:**	
Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/2968		

Description

When cloning a host/hg the smart class parameters/variables that are overridden do not clone their value.
The cloned host shows that these parameters are overridden but shows them with the original value.

This happens only through the UI, when cloning through API the lookup values are cloned.

It seems to be working as of #11458, but not as of #12609. Either way, this seems to be a regression.

There is also a partial regression of 003359564, as I see invalid match/value errors on the clone form which were hidden before.
